## URAL India: Well equipped with requisite technology and expertise

**T**he Joint Venture is an example of world-renowned technology, innovation, aggressive management, modern workplace, and experienced manpower. URALAZ of Russia is a leading manufacturer and supplier of All-Wheel-Drive, cross country, Off-Road, and On-Road Vehicles. URALAZ is a major supplier of Commercial Vehicles and meets the demand for Heavy Duty vehicles of both Civil as well as Defense Vehicles. Indian Army has also successfully used a large number of URAL Application vehicles in the past. URALAZ in collaboration with their Indian

Partner' Motijug Agencies Ltd. has established a Joint Venture Company in India. The Joint Venture Company is Registered in Kolkata, India under the name " URAL INDIA LIMITED". URAL INDIA LIMITED is manufacturing Heavy Duty, High Performance Trucks, Tippers, Articulated and other Application Vehicles. The company is well equipped with requisite Technology, Expertise and experience to meet these prerequisite.

Ural India Limited is a manufacturer and supplier of commercial vehicles and buses for both Civil as well as Defense purposes, supplying a wide range of

all-wheel-drive, cross-country, off-road and on-road vehicles, with product range from 16ton to 72ton. The company has partnered with leading suppliers across the world to bring a global product to Indian customers.

The trucks range from 160 (HP) - 400 HP with 4x2, 8x4 rigid trucks and 4x2, 6x4 (Prime movers). The 6x6 tippers are world renowned for their off-road capability.

The advantages of Ural 6x6 tippers are:

The trucks are 4x2, 6x4 for on-road transportation. The 8x4 tippers fitted with 400 (HP) Engine are ideal for mining appli-

cations. The 6x6 trucks are ideal for any off-road applications and are being used world wide for mining, oil and gas, tunneling and extreme applications.

With these the prime movers are of 4x2, 6x4, with 400 (HP) engine for bulk transportation.

Ural is currently in process of establishing dealers and service networks across India. It has already established dealers in some areas and is focussing on having its network ready soon.

Ural has recently launched a range of buses standard buses, school buses, low floor, luxury coaches and standard coaches.
